Subject: RE: New point of contact for CapturePoint Solutions, LLC in regard to Class VI Permit submissions and correspondence

Hi Nick,

EPA has received and processed the electronic signature agreement (ESA) for Krishnan and we have you listed as the point of contact for the CapturePoint Solutions projects. The point of contact is different from a signatory who has submitted an ESA. The POC is for GSDT administrative purposes. Multiple users can be signatory authorities provided they have submitted an ESA and hold an appropriate position per 40 CFR 144.32. The permit application must be signed by a responsible corporate officer, however the POC doesn't have to hold such a role.

Hope that clears things up.

Cheers,
Dan

Subject: RE: New point of contact for CapturePoint Solutions, LLC in regard to Class VI Permit submissions and correspondence

Good afternoon folks. In checking the GSDT tool I noticed that there is no completed ESA. What do I need to do on my end to complete this so that I am listed as the point of contact in the GSDT for CapturePoint Solutions, LLC.

Many thanks

-Nick

Nick –

I'll update it locally for the 3 projects in our region. I've also added the 2 Class VI contacts in Region 7 to this email so they're aware and can update the Kansas project.

Anything else, feel free to reach out!
Brandon

Hi Brandon, thanks for the quick response. This change needs to be made officially for all of CPS's projects and made official in the GSDT as well. All of the projects are listed below.

LA-0005
LA-0006
KS-0003

OK-0003

Again, many thanks

-Nick

Nick –

I can update it regionally for our office. If anything needs to be officially updated in the GSDT or elsewhere, Molly and Dan are the ones who will have to update it.

Is this only for the project with files currently submitted to the GSDT and OneDrive (R06-LA-0005), or is this for other CPS projects as well? If others, which one(s)?

Thanks,
Brandon

Subject: New point of contact for CapturePoint Solutions, LLC in regard to Class VI Permit submissions and correspondence

Hi Ken, we need to change the point of contact with respect to the Class VI permit application process from Krishnan to myself (Nick Jones – njones@capturepointsolutions.com). This will be necessary for the GSDT and any and all other correspondence between CPS and EPA. Let me know if there is anything we need to do on our end to make this change.

If you have any questions don't hesitate to contact me.

Many thanks

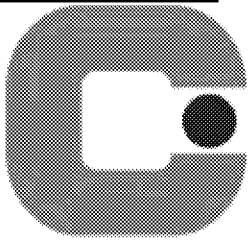

-Nick
